

RITIK SHARMA

AI / ML Engineer | Computer Vision | NLP | Generative AI

✉ keshavs424@gmail.com | ☎ +91 9992266872

GitHub: github.com/keshavs07 | LinkedIn: linkedin.com/in/ritik-sharma-799b55248

Professional Summary

Passionate AI/ML Engineer with practical experience building end-to-end Machine Learning, Computer Vision, NLP, and Generative AI applications. Experienced in Python, YOLOv8, OpenCV, Flask, MediaPipe, Sentence Transformers, OCR, and LLMs. Developed multiple real-world AI systems for driver monitoring, crop disease detection, ATS resume screening, fake news verification, and mental health assistance.

Technical Skills

Languages: Python, SQL

Libraries: Scikit-learn, Pandas, NumPy, OpenCV, MediaPipe

Deep Learning: YOLOv8, TensorFlow (Basics)

NLP & GenAI: Sentence Transformers, OCR, LLMs, Semantic Search

Frameworks: Flask

Tools: Git, GitHub, VS Code, Jupyter Notebook

Professional Experience

AI/ML Intern | Bexo.AI | Mar 2026 – Present

- Developed AI-powered applications using Python.
- Built Computer Vision and NLP pipelines.
- Performed data preprocessing, model evaluation, and deployment.
- Collaborated with developers to integrate AI models into production.

Featured Projects

Driver Safety AI

Role: Lead AI/ML Developer

Tech Stack: Python, OpenCV, MediaPipe, Flask

- Real-time driver monitoring system using EAR & MAR for drowsiness and yawn detection with webcam/IP camera support and instant audio alerts.

Crop Health AI

Role: Computer Vision Developer

Tech Stack: YOLOv8, Python

- AI-powered crop disease and pest detection system trained using YOLOv8 for real-time agricultural monitoring.

Smart ATS Resume Screening

Role: NLP Developer

Tech Stack: Sentence Transformers, Flask

- Semantic resume screening platform that intelligently ranks resumes against job descriptions.

SmartNewsVerifier

Role: AI Developer

Tech Stack: NLP, OCR, LLMs

- Multimodal fake news detection system that analyzes text and images while generating AI-based explanations.

Mental Health Companion

Role: AI Developer

Tech Stack: Python, NLP, OpenCV

- Emotion-aware chatbot performing sentiment analysis and facial emotion recognition for personalized conversations.

Education

Master of Computer Applications | CGC Jhanjheri

Bachelor of Computer Applications | Mukand Lal National College

Achievements

- Developed 5+ end-to-end AI projects.
- Hands-on experience in Computer Vision, NLP and Generative AI.
- Strong understanding of Machine Learning lifecycle and deployment.
